3 August 1956

MEMORANDUM FOR : Project Security Officer

SUBJECT : Destruction of Waste Film at Hyeon

1. I have your memorandum (SAPC-7400) of 1 August 1956 on the above subject giving your recommendation for disposal of waste film resting at Hyeon.

2. The solution to the disposition outlined does not meet with my approval. Although it may be a safe way of disposing of the film, it seems to me to be most complicated.

3. I recommend the film be disposed of as follows: All waste film on the West Coast, whether at Hyeon or elsewhere, be transported to [REDACTED] and turned over to [REDACTED] for destruction by burning. Waste engine oil or other inflammable liquids can be added to the film to hasten its destruction by fire.

4. If my proposal for destruction is not feasible from your standpoint, I should like your comments as to the reasons why not, otherwise I will assume that action has been taken for the film's destruction as I have suggested.
